

Catering Menu

The below is designed to give all challengers a flavour of the food, and meals that you can expect to receive on an Ultra Challenge. There is no 'definitive list', as we often change some items and options – due to supply, feedback and the location of an event. We can cater for all dietary requirements, and there will always be options available at each stop, sometimes these options are set aside from the main catering, so we advise that you ask/ speak to a member of staff if you require something further.

Start – Available 0km Start Line
